Dear Kenny,

I just spoke with Victor Diaz who is in charge of Funespor, and to assure that we can run the project, he will appreciate if you can send by fax the letter with your logo without signature and then to send your signature in another paper. This way they will copy your signature in case the documents did not arrive in time.

You have also to inform them about the registration number of the Union and the name that the union is been registered. Maybe it's: *Svenska Hamnarbetarförbundet Avdelning 4*, but better that you confirm them. If you prefer to send these informations by email, their email is: prevencion@funespor.org and the person in charge is Margarita Cabrera.

I hope this work or Victor will be very disappointed. He thinks this could be a very good project for you all.

Dear Kenny,

I think that you are informed about the project that Funespor propose to your union about the project for **Grants for the provision and dissemination of effective good practices on the containers operatives**. I would like to know if you are interested in the project, because the deadline is on the 31st June and we need you to sign and send back to Spain some documents. I will appreciate your soon answer in order to inform Funespor about it.

I will appreciate your soon answer in order to inform Funespor about it.

Thanks a lot.
